

THE MURAL SITE:

The alley is flanked by the historic Cotaco Opera House building to the west, multiple historic buildings to the east, a large parking area to the south and an elevated street (Johnston Street) to the north. The mural will be located on the wall of the Cotaco Opera House building as shown in the photo below.

The dimensions of the mural space shown are as follows: (all dimensions are approximate)

- 1) 15 feet 2) 23 feet
- A) 9 feet 5 inches B) 6 feet 11 inches C) 9 feet 7 inches
- D) Doorway – 8 feet 5 inches (height) x 4 feet 4 inches (width)

**Please note: Some of the ground level elements of the existing alleyway will be partially or fully hidden in the final alley design behind landscaping, small walls or other design elements. The goal is not to attempt to fully hide all elements as the final project design will seek to embrace the “industrial” feel of the space.*

Use of portions of the building outside the stated dimensions is available for artists that would like to creatively incorporate a larger area. Artists are encouraged to think outside the box with their design and are free to incorporate the various elements of the building except for attached utilities such as powerline weatherheads and greasetraps. The design of the alleyway will incorporate lighting focused on the 15 feet x 23 feet portion of the final mural.
