

The general install area for the sculptural bench is in yellow on the pictures above. The blue star depicts the general location where the historical marker will be placed (3 feet in front of the planter). Exact location of the bench within this space will be determined in partnership with the selected artist based on the size and form of the design. The sculpture must be anchored to the sidewalk. The closest building to the site for google earth imagery is 126 St. Clair St, Frankfort KY, 40601. Note, the images may show a temporary sculpture that is no longer installed. The map to the left depicts Frankfort's current public art installations with this future install depicted with \*.
