

Bernalillo County @ Alvarado Square (BC@AS) Public Art Project 2023 Proposed Locations

The BC@AS building has many unique architectural features. The artists or artist teams may consider one or more of the following sites for the project as long as the project remains within the \$200,000 budget. The recommended sites for artists and artist teams to consider for the project include but are not limited to:

- Exterior facades of the tower and atrium
- Interior of the atrium
- Vertical and horizontal walls in the building's lobby
- Courtyards and walls near the main entrance to the building (south side of the building on Silver Avenue near Fifth Street)
- The exterior walls and underside of the second-floor bridge that connects the north and south sides of the building
- The exterior walls of the east side of the building

The following pages include several different views of the recommended sites for the public art project. Full architectural plans are available upon request.
