ART WALK

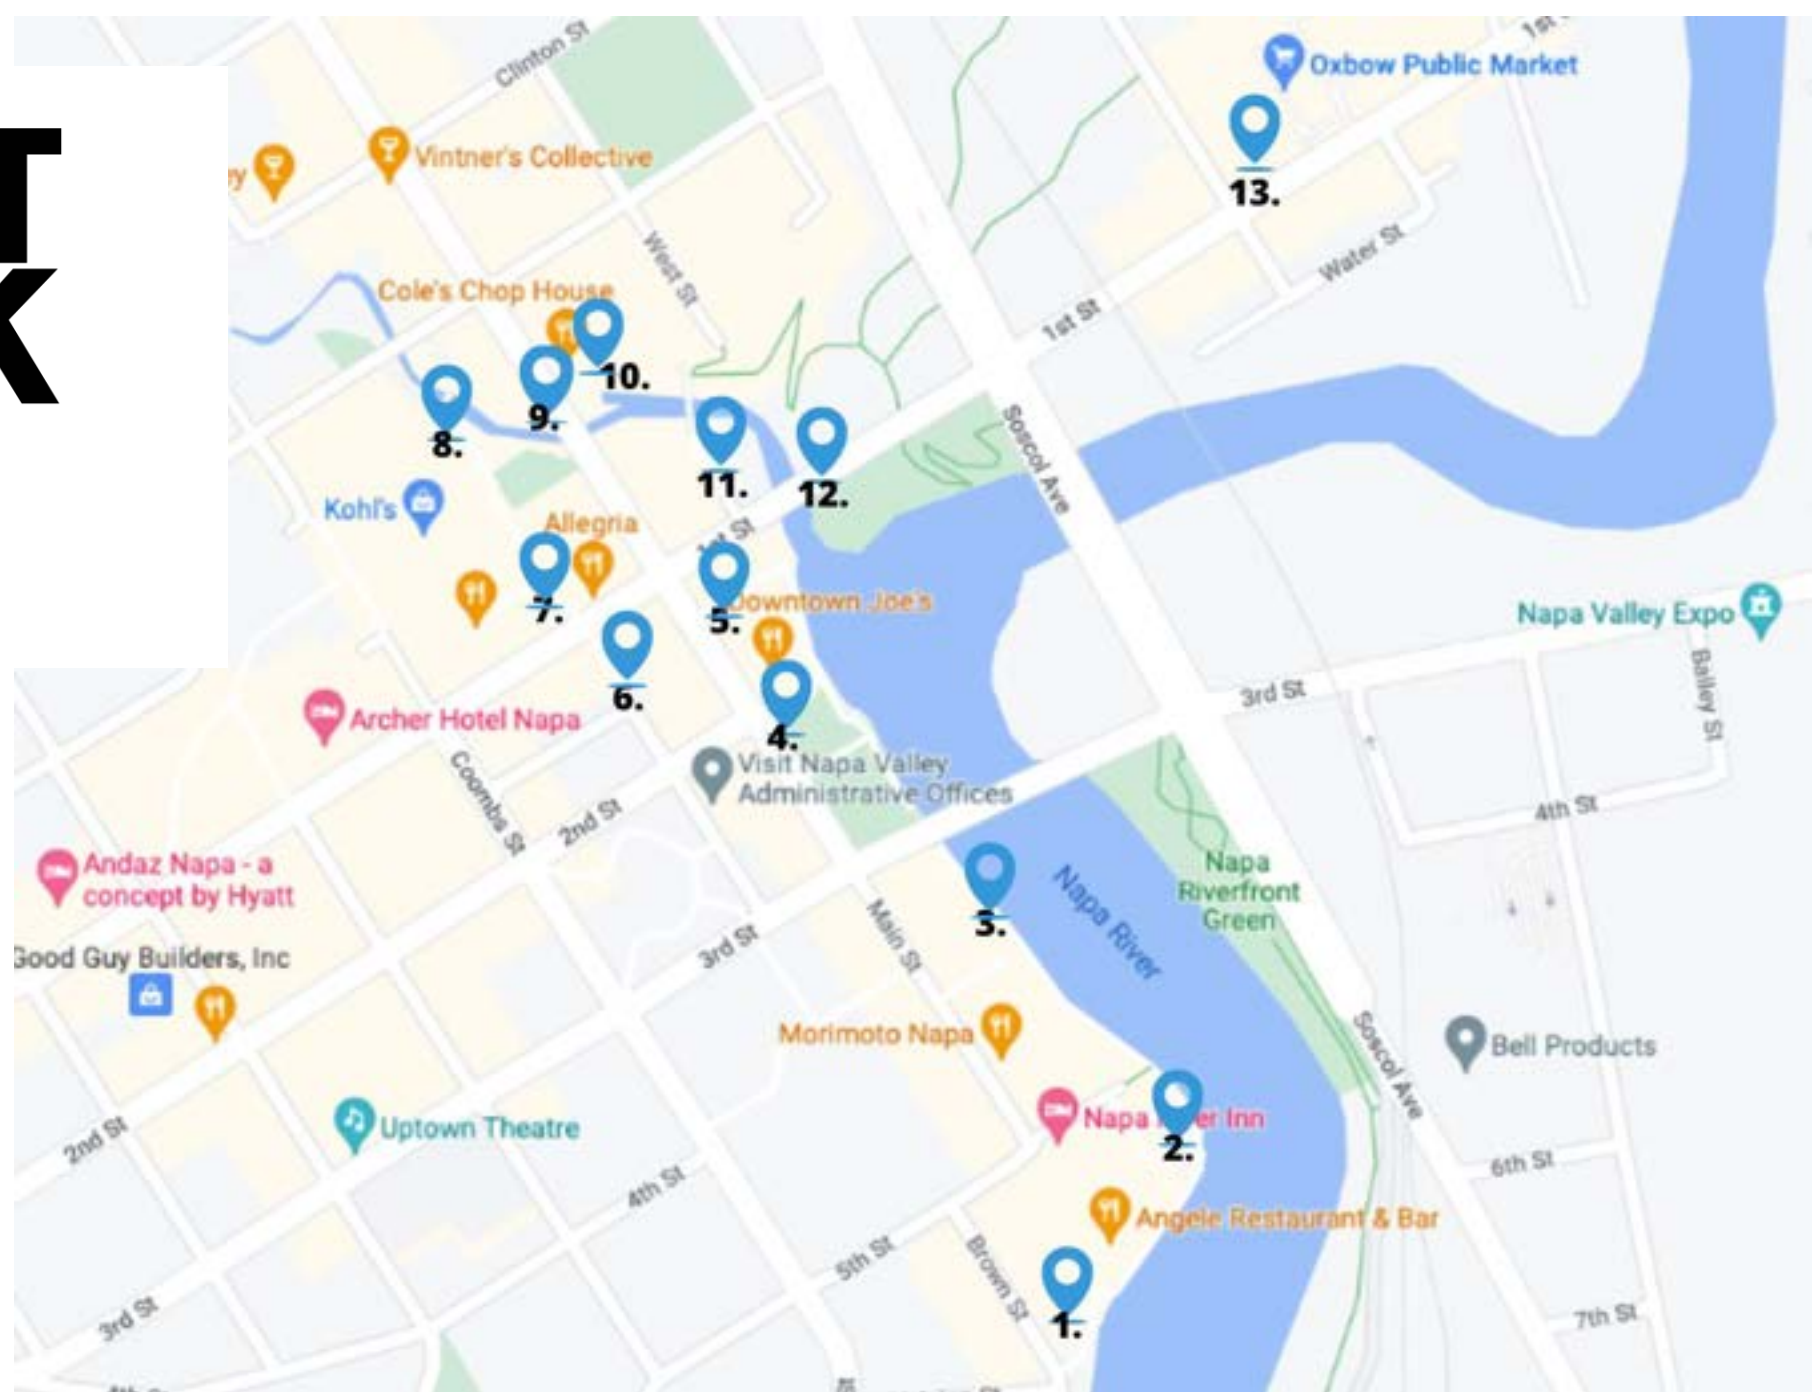

2024 – 2026 Potential Sites Overview

About Napa Art Walk Sites

- All sites are a brief distance from one another in downtown Napa, and several are on or near popular visitor destinations. Busy pedestrian walkways, bridges, the riverfront, and plazas serve as accommodating and attractive sites that elevate the artwork while simultaneously integrating it into the cityscape.
- Concrete pad sizes are listed in the call. If your artwork does not fit or require a concrete pad, please specify in submission your artwork footprint and installation plan.
