

MARKET AND BANK PROJECT

Site A: Ann + Bank Garage

The Ann + Bank Garage is a parking structure located at the corner of Ann + Bank Street. The first façade, located along Bank Street, is roughly 270 linear feet and has six levels. The second façade, located along Ann Street, is roughly 100 linear feet and has six levels.

Ann Street Façade

Site B: Ann Street Plaza

The Ann Street Plaza is a roughly 30 feet wide by 50 feet long plaza space at the corner of Bank and Ann Streets. The Plaza is adjacent to the Ann Street parking garage. The site houses several utility boxes and underground utility services. Proposals would need to account for existing site obstacles, including below grade utilities.

Ann Street Plaza

Site C: Market + Bank Point

A roughly 1,200 square foot area forming a “point” at the intersection of Market + Bank Streets. Proposals for this area need to minimize height and vertical components so as not to interfere with traffic patterns.

Market + Bank Point

Site D: Market + Bank Stairwell

A stairwell that is roughly 70 linear feet and connects Market Street and Bank Street. Proposals for the stairwell are not permitted to puncture any of the stairwell walls or ceiling. Only murals will be considered for this location.
