

FINAL CONCEPT DESIGN - PLAN

Concept Outline

This design concept features a central tech island as the focal point, seamlessly guiding the park's flow. Adjacent lanes, equipped with ledges and flat bars, cater to a range of skill levels, ensuring accessibility for all users. The northern section includes an inviting entry plaza that connects the park to existing parking, highlighted by a sculptural volcano feature and integrated seat walls within the proposed greenspace. Additionally, vegetative buffering and bio-retention swales enhance security and provide a natural separation from oncoming traffic along Beardsley Road.

Concept Plan Legend

- ① Pedestrian pathway(s)
- ② Perimeter landscape buffer along roadway
- ③ Green storm-water feature with native plantings
- ④ Entry w/ stair-set, flat bar, volcano, & slappy curb
- ⑤ Bank w/ downrail & hubba
- ⑥ Kicker-to-kicker with out-ledge
- ⑦ Center island with hip & 14" ledge
- ⑧ Flat bar
- ⑨ Central tech island with banks and stacked ledges
- ⑩ Signature bank wall w/ stacked ledges & manual pad
- ⑪ 6" manual pad
- ⑫ Banked Hip
- ⑬ 4' Quarter-pipe
- * Skatepark Access Point

Skatepark features are schematic and will be modified
Based on community input, project budget and
geotechnical findings.

The current design is schematic to represent the
intended terrain style for the project scope.
