The Theater Gallery is an approximately 35-foot long transitional hallway from The Center Theater to the education pavilion at The Center with exhibition space on both walls of the sloping, narrow gallery. This is a high visibility, high traffic exhibition space, with more than 100,000 audience members attending events in and around the campus every year. The Center will provide handling and installation of artwork, limited sales representation, marketing, a printed postcard, an opening reception for the artist, and an Artist Talk.
